FISCAL ANALYSIS

ASSUMPTION

Officials from the **Missouri Gaming Commission (GAM)** state this proposal would not fiscally impact their agency. GAM states that background checks are already being conducted, and this proposal is necessary to satisfy requirements of the U.S. Department of Justice. If the statutes regarding background checks for the Missouri Gaming Commission fail to come into compliance with Public Law 92-544, GAM assumes they will be unable to continue these checks.

In response to a similar proposal from this year, officials from the **Department of Public Safety - Missouri Highway Patrol** also assumed the proposal would not impact their agency.

FISCAL IMPACT - Small Business

No direct fiscal impact to small businesses would be expected as a result of this proposal.

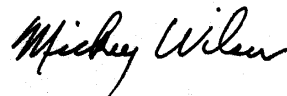

DESCRIPTION

This proposal requires the State Gaming Commission to submit two sets of fingerprints to the State Highway Patrol for every person seeking employment with the commission or anyone seeking a new or renewal of a license required by the commission related to bingo and excursion boat gaming. The Highway Patrol will run various searches against national data bases and inform the commission of any criminal history.

This legislation would not duplicate any other program and would not require additional capital improvements or rental space. The proposal, however is necessary for the Federal Bureau of Investigations to continue performing fingerprint background checks for the Missouri Gaming Commission.
